SELFLANE

SETUP CHECKLIST

Get started with Selflane

From sign-up to your first order.

Set up your restaurant

- [ ] **1. Create your business**
  Find your restaurant on Google to fill in its details, or enter them yourself. Check the address, contact details and hours.
- [ ] **2. Answer the setup questions**
  How you serve guests, the services you want and your monthly sales. Choosing a service doesn't start a charge.
- [ ] **3. Build your menu**
  Upload menu photos, a PDF or a spreadsheet. Review the AI draft's dishes, prices and options before you apply it.
- [ ] **4. Set up your POS**
  Install Selflane POS from the App Store, connect your printers, and pair a Stripe reader, Tap to Pay on iPhone or a terminal from your processor.

Go live online

- [ ] **5. Create your Stripe account**
  In Back Office › Owner's Portal › Payments. Have your EIN, owner details and bank account ready for Stripe to verify.
- [ ] **6. Turn on online ordering**
  Once Stripe approves you, turn it on in Settings › Online Ordering, then check your live menu, prices and hours.
- [ ] **7. Add your ordering link to Google**
  On your Google Business Profile, it shows as an Order Online button in Search and Maps. Add it to your social profiles too.
- [ ] **8. Train your staff**
  Taking orders and payments and clocking in and out: step-by-step guides at docs.selflane.com.
